December 12, 2023

Due to an as yet unknown issue with the main transmission system we are unable to reach authorized power for WKSF(FM). We are requesting Special Temporary Authority ("STA") for operating the facility with less than nominal Effective Radiated Power ("ERP").

We are currently operating at 15.9 kW ERP with the intent to remain near that level, however further degradation in the system and eventually needed repair work will likely require further reductions.

Due to the winter conditions at the transmitter site we may not be able to access the site until springtime. We request STA for 180 days.

It is in the interests of the public that the station be allowed to operate at reduced power as repairs are carried out.

Please direct any inquiries regarding this matter to the undersigned.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Troy Langham".
