

Voice of Hope Inc. Vision & Mission Statement

Established as a non-profit religious media ministry on December 1, 2023, serving the Kansas City, Missouri area, Voice of Hope Inc. spreads the uplifting Gospel message of salvation, God's unconditional love, and living hope found in Jesus Christ across digital platforms and in-person events.

Our vision is to reach Internet users, radio listeners, and community event attendees with inspirational, Biblically-grounded content that ministers to spiritual needs. We share the Word of God on social media, through our online Christian radio station, and at our Kansas City community center, where our pastors conduct various guidance programs.

Some of these discipleship offerings include spiritual counseling and support groups fostering healing, Bible study classes equipping believers, recovery meetings helping people overcome addictions/hardship through Christ, family/youth ministry events guiding the next generation, and volunteer opportunities serving the marginalized.

We propose to send a message that no matter one's questions, struggles, or background, there is meaning, freedom, and identity in embracing Jesus. Voice of Hope strives to compassionately counsel seekers in making this spiritual connection.

The organization is overseen by a Board of Directors democratically elected by regular members who coordinate various media projects and community center assistance. We are funded by donations from ministry partners, allowing multimedia content creation, facility maintenance, and spreading the message of living hope to more souls for transformation.
