

Off-Air Status and Silent STAs

Radio station KRCK-FM, Mecca, California (Facility ID No. 52808, “KFRH”), and related FM translator stations K238AK, Palm Desert, California (Facility ID No. 147714, “K238AK”) and K251BX, Palm Desert, California (Facility ID No. 150925, “K251BX”), have been reported to the Commission as off the air as of September 8, 2023, and have been granted special temporary authority (“STA”) to remain silent. See LMS File Nos. 0000220884, 0000220885, and 0000220886, respectively.

While the off-air notification and request for silent STAs were filed timely, on September 11, 2023, FCC counsel for the stations left on September 13, 2023 and was out of the country (in France) until September 26, 2023, and overlooked amending the renewal applications for these stations until this time; counsel apologizes for his oversight, and notes that there is no harm to any party since there currently is a hold on processing of the renewal application.
