

Compliance Category Exhibit

The Licensee has selected Category A, Option 1 to demonstrate the station's compliance with the Commission's Core Programming safe harbor processing guidelines. *See* 47 C.F.R. § 73.671(d). The data reported herein gives the appearance of a shortfall of Core Programming during First Quarter 2023, when there were only 12 Saturdays. The seeming shortfall was an oddity of the calendar rather than a compliance error by the station. In fact, as reported in the station's 2022 Children's Television Programming Report, the station aired 28 hours of Core Programming on the main program stream and 14 hours on the multicast during Fourth Quarter 2022 because there were 14 Saturdays that quarter. As such, the station achieved compliance for each quarter of 2023, including First Quarter 2023, under Category A, Option 1 when averaging the data over a 6-month period, as required.
