

## **EDUCATIONAL PROGRAMMING STATEMENT**

Our non-profit organization, the "International Ministry People of God," was established in 2012 in the state of New York, and while we have a foundation in Christian education, we are committed to expanding our programming to cater to a broader, non-religious audience.

Our central mission is to utilize the enriching potential of education, encompassing both spiritual and secular aspects, to nurture personal development, strengthen communal connections, and empower individuals to flourish in an ever-changing world.

Diving deeper into our educational approach, we aspire to create an inclusive array of services that empower not only our community but also neighboring ones. Our primary objective is to guide the current and future generations towards purposeful lives, encompassing not only spiritual fulfillment but also academic excellence and personal growth.

We actively seek collaborations with businesses, individuals, and organizations capable of providing valuable educational resources to those in need. Through these partnerships, we aim to offer a diverse array of programs and events that promote unity, inspiration, and individual growth within our community.

In addition to our faith-based inspirational music and devotionals, our non-religious educational programming is designed to deliver content that assists individuals in discovering inner peace, fostering hope, and facilitating personal development, especially for those facing challenges and seeking support. Our dedication to education transcends religious boundaries, with the ultimate goal of equipping all individuals with knowledge and skills to lead fulfilling lives.
