Request for STA  
KNWN(AM) Seattle, WA  
Lotus Seattle Corp.

KNWN (Facility ID 21647) is a Class A station licensed to operate at 50 kW full time, using a directional antenna at night (DA-N). Due to an as yet unidentified problem, the nighttime directional antenna is out of tolerance.

Lotus respectfully requests STA for a period of 180 days to operate during nighttime hours using the licensed daytime non-directional antenna at a reduced power of 12.5 kW (25% of licensed nighttime power) while the antenna problem is identified and repaired.

Daytime operation will continue as licensed.
