

Purpose of Amendment

This amendment is filed to supply real-time, measured data concerning the availability of other stations to serve as the “host” or “Sharer” station to KNXT-LD and address questions raised by FCC Video Division staff. The amendment supplies a revised Engineering statement based on measured video stream bitrates (MBPS) of the stations.

My Central Valley, LLC respectfully again refers to its waiver request and request for expedition in the hope that it can serve its viewers with a clear signal in time for the spring local sports season.
