## TRANSFER OF CONTROL INFORMATION

Pursuant to Section II, Item 6 of the *Form 316 Instructions*, this Transfer of Control application has been triggered by a decision by the Board of Directors to increase the number of directors from two to five persons by appointing three additional members, with all 5 members having equal vote. As this results in 40 percent of the organization board members retaining control and the new members gaining 60 percent control since the last time the board was reported to the Commission, this would trigger the need for the filing of a *pro forma* transfer of control.

As the organizational entity remains the same for the station, there is no specific contract or other agreement associated with this *pro forma* transfer of control.
