

### **Children's Television Programming Reports**

The Licensee has certified in the affirmative to the question asking whether, for the period of time covered by this application, it has filed with the Commission, and incorporates by reference, the Children's Television Programming Reports as described in 47 C.F.R. § 73.3526, containing all required information. In connection with review of the Reports filed throughout the license term in preparation of this license renewal application, the Licensee discovered certain inadvertent errors in its timely filed Reports for various quarters during the period 2014 through 2019. The Licensee refers the Commission Staff to the narrative amendments uploaded in the Additional Documents folder of the Children's Television Programming Reports portion of KMIZ's online public inspection file.<sup>1</sup> The Licensee also found errors in the annual Reports for 2019 and 2020 and has caused amendments to be filed through LMS. With the amendments described in this exhibit, the Licensee incorporates all Reports filed during the license term by reference.
