March 6, 2024

Since December 2023 WKSF(FM) has been operating with reduced power pursuant to STA 0000232550 because of an issue with the main facility transmission system. Now the main transmission system has failed due to damage to the antenna transmission line from falling ice. The main facility cannot be repaired until weather conditions allow better access to this mountain top site.

WKSF(FM) is now serving the public with licensed auxiliary facility BXLH-20160616ABP as we await improving site access to make the needed repairs.

As we expect it will take more than 30 days for the main site to be repaired, we provide notice and ask for Special Temporary Authority (“STA”) to operate the station with the licensed auxiliary facility for this extended time.

Please direct any inquiries regarding this matter to the undersigned.

Respectfully submitted,

A handwritten signature in black ink that reads "Troy Langham".
