RE: NEW Call Sign Request for Facility ID 787832 File Number 0000231548

Dear FCC,

As President and General Manager of Lighthouse Network, and former licensee of DKIEI-LP 194172 San Antonio, TX, I would like to request we use the same "KIEI-LP" call sign which was dismissed by the FCC previously.

The former LPFM station was in good standing with the FCC, although some circumstances outside of our control within the FCC processing a long pending application simply required we let that license expire per FCC counsel.

Please contact me or Sterling Communications staff with any questions. I appreciate your help and assistance with this Call Sign request.

Sincerely,

A handwritten signature in black ink that reads "Ramon T. Martinez". The signature is written in a cursive, flowing style.

Ramon Martinez
President
