

**Request for Expedited Consideration**

Latino Media Network, LLC, (LMN) respectfully requests expedited consideration of this application. Assignor seeks to assign licenses to an entity with the same attributable ownership interests as Assignor. As such, previously approved principals of the licensee would retain 100% of voting rights. Moreover, the previously approved principals would do so in proportions identical to those that exist under current ownership.

Expedited consideration of the instant application would serve the public interest by reserving Commission resources for processing of applications that involve substantial changes in ownership or control.
