

Multiple Ownership Report
Proposed KIQX, Durango, CO (FIN: 22174)
4/28/2012

This exhibit demonstrates compliance of the proposed minor modification for KIQX with the Commission's multiple ownership rules as set forth in 47 C.F.R. § 73.3555(a).

Since KIQX does not have its community of license located within the geographic boundaries of any Arbitron Metro, compliance with the multiple ownership rules was demonstrated using interim contour-overlap methodology. Under the Interim Methodology, a radio market is defined as the area encompassed by the principal community contours (predicted or measured 5 mV/m groundwave contour for AM ; predicted 60 dBμ F(50,50) for FM) of the stations that are both mutually overlapping and proposed to be commonly attributable post-transaction.

The proposed KIQX overlaps the following attributable licensed stations, and therefore form a local market:

KRSJ, Durango, CO (FIN: 22036) licensed to Four Corners, LLC
KIUP(AM), Durango, CO (FIN: 22003) licensed to Four Corners, LLC
KWGL, Ouray, CO (FIN: 58856) licensed to WS Communications, LLC

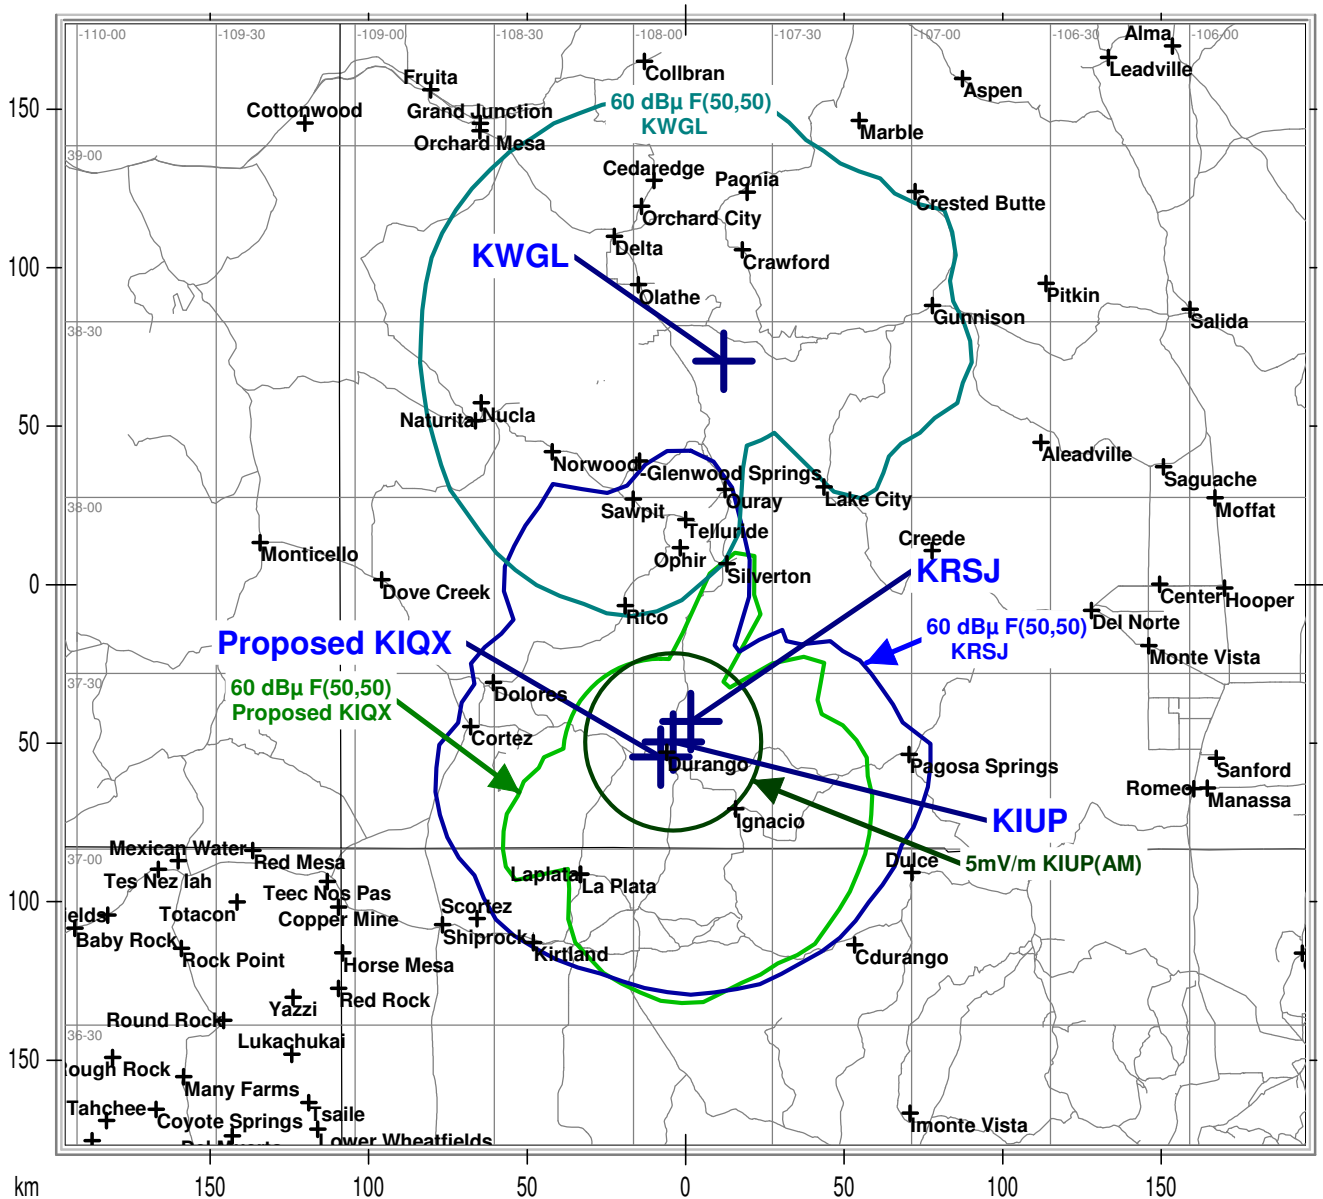

Please refer to the Proposed KIQX Multiple Ownership Map.

An engineering analysis determined that 26 licensed FM stations overlap the local market composed of stations KIQX, KRSJ, KIUP and KWGL. None of the transmit locations of these 26 FM stations are further than 92km from the perimeter of the local market overlap area. Please refer to Table 1. FM Stations Overlapping KIQX, KRSJ, KIUP, and KWGL.

An engineering analysis determined that 6 AM stations overlap the local market composed of stations KIQX, KRSJ, KIUP and KWGL. None of the transmit locations of these 6 AM stations are further than 92km from the perimeter of the local market overlap area. Please refer to Table 2. AM Stations Overlapping KIQX, KRSJ, KIUP, and KWGL.

According to the Commission's multiple ownership rules, in a radio market with between 30 and 44 (inclusive) commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 7 commercial radio stations, not more than 4 of which are in the same service (AM or FM). Therefore this application meets the requirements of 47 C.F.R. § 73.3555(a).
