**June 2007**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Cumulus Licensing LLC ("Cumulus"), licensee of radio station WFAS-FM, Channel 280A, White Plains, New York. Cumulus has an outstanding permit to change the community of license for WFAS-FM (BPH-20070119AAG). Cumulus herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the WFAS-FM transmitter is attached as Exhibit A.

There are two operating conditions/restrictions on the WFAS-FM permit. The first condition states that Cumulus will reduce the power of WFAS-FM, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. Cumulus will comply with this requirement.

The second condition states that pursuant to Section 316(a) of the Communication Act of 1934, as amended, the WFAS-FM license (BMLH-19940928KZ) is modified to specify operation on Channel 280A at Bronxville, New York in lieu of Channel 280A at White Plains, New York. Cumulus acknowledges this condition. Based on the foregoing, it is believed that WFAS-FM is operating in compliance with the Commission's rules and that all conditions have been met.
