

Character related allegations have been raised in a petition to deny filed on September 1, 2004 by Right to Decency, Inc. and American Decency Association against the application for renewal of license for station WKRK-FM, Detroit, Michigan, FCC file no. BRH-20040601BHZ. Both the licensee of WKRK-FM and the licensee associated with this application are commonly owned.

The petitioners suggest that the licensee of WKRK-FM lacks the basic character qualifications to be a Commission licensee because of alleged violations for the Commission's rule on the broadcast of indecent material.
