CERTIFICATION

I, Manley D. Carr, a Professional Land Surveyor in the State of North Carolina, License No. L-2580, certify that on the 30th day of January, 2013, I performed a final field survey on a tower in Mt. Olive, Wayne County, North Carolina for the alignment of WGXM, Calypso, North Carolina, Directional Antenna, a 91.1 MHz transmitting antenna SWR Model FMEC/2-PLUS-DA.

As per design drawings provided to me (Drawing No. 1762D00, 1762D01, & 1762D02) the antenna was to be built to the following specifications:

Antenna Direction = 270 degrees true azimuth

Center of Radiation = 147.65' above ground level (AGL)

I certify that the antenna is built and aligned to the following:

Antenna Direction: 270 degrees true azimuth

Center of Radiation: 147.5 feet above ground level (AGL)

Manley D. Carr
