Re: Homeslice Media Group, LLC (HMG)  
KKLS(AM), Rapid City, SD  
Facility Identification Number: 61320  
Special Temporary Authority (STA)  
BSTA-20220120AAH

Dear Mr. Kinney:

This is in reference to the request filed on January 20, 2022. HMG requests a further extension of the STA granted on June 7, 2016, to continue operating with DA parameters at variance to allow time to file the required FCC Form 301 application to propose permanent changes to the licensed facility, followed by an FCC Form 302 application to obtain a new license.<sup>1</sup> In support of the request, HMG states that it plans to file the application in the upcoming months..

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is GRANTED, and HMG may continue to operate with DA parameters at variance and reduced power while maintaining all monitor points within licensed limits. HMG must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on **July 31, 2022**.

---

<sup>1</sup> KKLS(AM) is licensed for DA operation on 920 kHz with 5 kW day and 0.111 kW night, using different patterns.

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large loop at the end.

Joseph Szczesny, Engineer
