Exhibit 6

Engineering Statement in support of an Application to modify BPTTL20010711ADY Channel 34, Booneville, MS, Unity Broadcasting, Inc.

BACKGROUND

Applicant holds a license for the operation of W53AF on channel 33, (+) offset, at the present time. The applicant wishes to make a modification to its construction permit to change the channel to 34 and the offset to minus (-). All other parameters will remain the same. This modification is required since the testing with the construction permit parameters has shown significant interference to our viewers. The modification should improve reception and reduce co-channel interference to our viewing audience.

INTERFERENCE STUDY

Channel 34- was analyzed using Longley-Rice methodology in accordance with OET Bulletin 69. The listed stations were analyzed and any appropriate notes were included.

ANALYSIS

WCBI-DT, Columbus, MS, 35N

BLCDDT20020822ABO; The interference to WCBI-TV is 0%.
