Re: Radio Acquisition Corp.
WMTN (AM), Morristown, TN
Facility Identification Number: 22338
Special Temporary Authority
BESTA-20130611ABS

Dear Mr. Stone:

This is in reference to the request filed June 11, 2013, on behalf of Radio Acquisition Corp. ("RAC"). RAC requests extension of special temporary authority ("STA") granted on December 14, 2012, to operate Station WMTN with emergency antenna facilities pursuant to Section 73.1680.¹ In support of the request, RAC states that the tower has been replaced and temporarily tuned for continued operations pending completion of repairs. Adjustments and measurements must await repairs to the ground system, which repairs have been delayed due to various causes.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is

¹ WMTN is licensed for operation on 1300 kHz with a daytime non-directional power of 5 kilowatts and a nighttime non-directional power of 0.096 kilowatt (ND 1-U).

warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WMTN may operate with the following facilities:

Geographic coordinates: 36° 12' 15" N, 83° 19' 57" W (NAD 1927)

Frequency: 1300 kHz

Operating hours: Unlimited

Operating power: 1.6 kW daytime, 0.096 kW nighttime

Antenna: 25.3 meter tower

Radiator height: 24.4 meters (3 8°)

It will be necessary to further reduce power or cease operation if complaints of interference are received. RAC must notify the Commission when licensed operation is restored.² RAC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **December 14, 2013**.

Sincerely,

A handwritten signature in blue ink, appearing to read 'JKong', is positioned above the typed name.
