Environmental Assessment Exemption

In accordance with 47CFR 1.1306 and other applicable rules regarding the environmental impact of broadcast facilities the technical specifications and location of the facilities outlined in this modification application have been reviewed and it is certified by the applicant that it meets the requirements for exemption of filing an Environmental Assessment. The regulations followed are located in 1.1307 a-d and the tables provided therein.

In addition, the applicant certifies that it will reduce power or cease operation if necessary to protect any persons from harmful RF exposure in excess of FCC guidelines.
