

6-30-10

To: Whom it may concern

Re: Certification of Construction of W204CI

This document will serve as notice that on 6-30-10, translator station W204CI was constructed per the terms of Construction Permit # BMPTF-20100319ADM. Scala FMV antenna was mounted on a temporary 20 foot mast at 6 meters and oriented so that the antenna major lobe was at 30 degrees true. The station was operated for a period of 1 hour from 12:45 PM to 1:45 PM. A legal station ID was given at the start of operation and at the end of operation by use of a frequency shift keying device attached to the transmitter. Station was operated with an ERP of 32watts. The programming source was streamed from the internet at csnradio.com.

I certify that the above statement is true to best of my knowledge and ability.

Respectfully,
