

**Southwestern Adventist University Agreement to Accept Interference from Minor Modification (BPTTL-20070504ACA) to Low Power Television Station K31GL-LP**

K31GL-LP's proposal (BPTTL-20070504ACA) to modify its pattern and erp, while remaining at its current broadcast location, is predicted to cause interference to Southwestern Adventist University's co-channel licensed facility, KGSW-LP (BLTTL-20050819ACA). Southwestern Adventist University agrees to accept the predicted interference caused to its facility by Mako Communication's minor modification application BPTTL-20070504ACA.
