Interference Compliance

Schenectady, New York

This is to show compliance with OET Bulletin 69 concerning interference to existing stations. Included is a table of stations which were considered in the instant application. As can be seen in the last column of the table, no interference, in excess of FCC guidelines, is caused to any other station. Station WEWB-DT is predicted to receive 0.3% interference, but this is still within the 0.5% limit as allowed in the rules. Therefore, the application is in compliance with FCC OET 69.
