International Border Compliance
Lake Havasu City, Arizona

As there is no class C0 in the U.S./Mexican Treaty, the proposal has been evaluated to Mexico as a class C station. The class C to C distance separation on the second adjacent channel is 105 km. The Mexican station XHMOEFM is 242 km from the KNLB site. This distance complies with the minimum distance separation in Table C of §73.207.
