Facility ID No. 14228  
FCC File Number: BP-20120110AEV

Dear Applicant:

The staff has under consideration the above-captioned application to relocate station KRCM(AM), to change the daytime and nighttime antenna systems from non-directional to directional, and to increase the daytime power and decrease the nighttime power.

A preliminary review of the application indicates that the proposed 0.025 mV/m interfering contour overlaps the 0.5 mV/m contour of co-channel station KBWD(AM), Brownwood, Texas, in violation of Section 73.37 of the Commission's rules. (See attached exhibit)

Accordingly, further action on the application will be withheld for thirty (30) days from the date of this letter to provide an opportunity to file a curative amendment. Failure to amend or respond within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules. If you have questions, you may contact the processing engineer.

Sincerely,

Son Nguyen
