My Comm. Expires January 23, 2014I William R. Ingram III, state that I am a Registered Land Surveyor in
the state of Arizona.

On March 2, 2010, I surveyed the installation direction of the FM antenna for Maston Towers Inc., for the KZAI, Superior, Arizona project, located near Tonto Basin Az. and Roosevelt Lake, approx. 9 miles west of Hwy, 188 on El Oso road at the top of the mountain. The antenna center was located and a compass bearing with declination set to -12 degrees (information shown on Reno Pass Quad. Map provided to client) was used to set a 60D nail and 4' lathe on the existing road used to line up the direction of the 2-bay FM antenna to a True 208 degree Azimuth. I observed the direction alignment of the antenna while the crew fastened it down on 3-2-10.
