CERTIFICATION

This is a certification that G. C. Stewart Associates, Inc. performed a field survey on Wednesday, June 18, 2008 in Netcong, New Jersey. The survey was performed for New Jersey Public Broadcasting Authority in connection with the construction of a new FM station at Netcong.

We aligned a Scala model 2-CA5-FM-VRM (Slant) antenna also known as the Netcong FM antenna. The orientation of one element of the antenna is 180 degrees from true north. The orientation of the other element is 290 degrees from true north.

Therefore, G. C. Stewart Associates, Inc. certifies that the Netcong antenna aligned June 18, 2008 is in proper alignment, as specified on a plan entitled Figure 2990730ME prepared by Shively Labs.

A handwritten signature in black ink, appearing to read "Ch. P. Stewart", written over a horizontal line.

Charles P. Stewart, P.L.S.

A handwritten date "6/20/08" in black ink, written over a horizontal line.
