

Atlantic Coast Communications, Inc.  
LPTV Station W26CE, Facility ID 47855  
Middle Island, New York

Request for Authorization to Remain Silent

Atlantic Coast Communications, Inc. (“ACC”) acquired W19CF, New York City, in May 2000 and filed a displacement application to modify the permit to operate on Channel 26 at Middle Island, New York. On March 23, 2001, with the grant of the displacement application, the station became W26CE serving Middle Island. ACC constructed the station and put it on the air on or about September 29, 2001. Unfortunately, ACC has been unsuccessful in developing a program format that will generate revenue. Due to its accumulated losses, on November 1, 2005, ACC was forced to take W26CE off the air while it continues to explore the programming options with an eye towards returning the station to the air at the earliest possible opportunity.
