

SUPERVISING ENGINEER'S CERTIFICATION

RE: Construction Permit BMPED-20100127ABL, WSLZ, Cape Vincent, New York

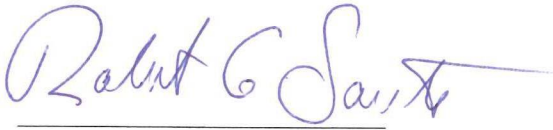

Certification:

This is to certify that the directional antenna system, specified in the above Construction Permit, was assembled and installed by qualified personnel under my direct supervision, pursuant to the manufacturers detailed instructions. Installation was carried out in accordance with good engineering practices.

Qualifications:

I have held the position of Chief Operator at North Country Public Radio, Canton NY since 1980, and have actively participated in the design, installation, and maintenance of broadcast equipment since then.

I currently hold General Radiotelephone Operator License PG-20-6181 and have held the Amateur Radio call sign WB2AMN since 1963. I was also issued First Class Radiotelephone and Second Class Radiotelegraph Certificates in 1978, and hold a BS degree in Electrical Engineering from Clarkson University, Potsdam, NY.
