Program Test Authority

Dear Applicant:

This letter is in reference to KKUA's request for Program Test Authority ("PTA") dated November 16, 2007 requesting reinstatement of the automatic program test provisions of 47 C.F.R. § 73.1620.

Construction permit BPED-20060126AJV contained a special operating condition indicating that the automatic program test provisions of 47 C.F.R. § 73.1620 did not apply. Special Operating Condition No. 2 required the permittee to make radiofrequency ("RF") electromagnetic field strength measurements throughout the transmitter site area to determine if there are any areas that exceed the FCC guidelines for human exposure to RF fields. KKUA's technical consultant, Edward P. De La Hunt, submitted an exhibit demonstrating compliance with the RF guidelines.

Upon review of KKUA's request, we find that Special Operating Condition No. 2 has been satisfied and automatic program test authority IS HEREBY REINSTATED. Automatic program test authority may commence pursuant to 47 C.F.R. § 73.1620.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
