Subject: FW: Program Test Authority -- WVRI -- BLED-20050804AAJ

By this e-mail, program test authority IS GRANTED to permit WVRI (FM) to operate at an effective radiated power of 50 kW ERP with the directional facilities authorized in construction permit BNPED-20000111AGV, pending further action on license application BLED-20050804AAJ.

This authority is being sent by e-mail in lieu of a letter in order to get this authority to you as soon as possible. Please print a copy of it and keep it with the station's records. The grant of this program test authority will also be noted in the FCC's CDBS database.

If there are any questions, please contact me at 202-418-2706.

**Re: Request of Reinstatement of Automatic Program Test
Authority
WVRI(FM), Pavo, Georgia (FIN: 122298)
FCC File No. BLED-20050804AAJ**

Dear Ms. Dortch:

On behalf of Educational Media Foundation ("EMF"), permittee of noncommercial educational station WVRI(FM), Pavo, Georgia, and applicant for a license to cover the construction permit of the station in the above-referenced application, this letter is to request reinstatement of Automatic Program Test Authority.

On August 10, 2005, EMF requested that the Commission delay the grant of EMF's pending request for reinstatement of Automatic Program Test Authority. EMF notified the Commission that on August 8, 2005, during the performance of equipment tests, the plate transformer in the transmitter failed; and that EMF would order replacement parts, promptly install them and recommence tests upon receipt. EMF has made the necessary repairs and the station is currently fully operational. Accordingly, EMF respectfully requests that the Commission grant reinstatement of Automatic Program Test Authority.

Should there be any questions regarding this matter, please contact the undersigned.

Respectfully submitted,

Karen A. Ross

Re: **WVRI(FM), Pavo, Georgia (FIN: 122298)**
FCC File No. BLED-20050804AAJ

Dear Ms. Dortch:

On behalf of Educational Media Foundation ("EMF"), permittee of WVRI(FM), Pavo, Georgia, and applicant for a license to cover the construction permit of the station in the above-referenced application, this letter is to request that the Commission delay the grant of EMF's pending request for reinstatement of Automatic Program Test Authority.

Although the station has been fully constructed and a license application filed, on August 8, 2005, during the performance of equipment tests, the plate transformer in the transmitter failed. EMF has ordered replacement parts and will promptly install them and recommence tests upon receipt. At that time, EMF will also notify the Commission that the station is once again operational. In the meantime, EMF requests that the Commission refrain from reinstating Automatic Program Test Authority.

Should there be any questions regarding this matter, please contact the undersigned.

Respectfully submitted,

Veronica D. McLaughlin Tippet
