### **Station as Implementing the Mission**

The station will be dedicated to addressing socially conscious issues as well as diversity in bicultural programming.

We will implement our diversity mission by broadcasting a mixture of news, informational, instructional programs, classical history programs and discussion radio programming, along with programming concerning and comparing Chinese and Western arts, culture and music.

Particular attention will be given to a focus on needs and interests of the Chinese American community in the socialization process. Specific informational, civic and cultural factors necessary for effective assimilation and cultural retention will be identified and developed into programs targeted to language impaired adults and children. Additionally, social media platforms will be integrated into station radio programming to assure access to those who are familiar with online tools. Bilingual programs will be broadcast to assure inclusion.

The station produces and distributes enriching, truthful, and insightful programs on traditional Chinese culture, ancient heritages, and contemporary news. Core principles are to uphold and promote respect for human rights, freedom of speech, freedom of belief and traditional values. With establishment of the station, we aspire to play a positive role in our community and contribute to a harmonious society.

In designing programs to implement our mission, we will conduct surveys of community leaders, activists and non-profit organizations to determine community needs and design and produce programs responsive to those needs.
