ENGINEERING REPORT

KSBL, FM Minor Modification for 269B

EXHIBIT 30 –ENGINEERING STATEMENT REGARDING SECTION 73.207

All channel 269B separation requirements for this proposal from the proposed transmitter site at Diablo Peak are in compliance with Section 73.207 (with the exception of KSCA 270B—short-spaced by 8.8 kilometers). A study based on Section 73.215 is included in Exhibit 34 of this application demonstrating adequate contour protection to KSCA.
