AMENDED INFORMAL OBJECTION

Re: BNPED-20071022BDQ. Pennsville NJ.
BNPED-20071022BDB Smyrna DE

1. The attached letter is from the owner of the tower(s) listed in the above applications.
2. The tower owner representative stated that the above applicant had not contacted the tower owner previous to the granting of this letter with any request for space, or discussion regarding availability of rental for use with the proposed station(s).
3. Although the applicant appears to have no MX competition with regards the Smyrna application, it is evident that such coordinates/transmitter/antenna location were undertaken without ever contacting the tower owner. The same failure to contact the tower owner exists with respect to Pennsville.
4. These applications must be dismissed (Sec. 73.3566) as Defective Application(s).

Re: American Tower Site #67 - Salem NJ - FCC ASR # 1045854
American Tower Site #88021 - Blackiston DE - FCC ASR # 1036135

*Re: Penn.
Snyder*

To Whom It May Concern:

American Tower Corporation, owner of the above referenced towers, hereby grants you permission to represent in any applications it files with the Federal Communications Commission ("FCC") that you have reasonable assurances from American Tower Corporation that it will enter into good faith tower space lease negotiations for the new FM station applications.

Regards,

Katelyn Czerwinski
