

**Technical Statement**  
**Application for Construction Permit**  
**W256BI Red Hook , NY**  
**June, 2009**

This technical statement is prepared by Charles Williamson, president of Digital Radio Engineering, Inc., for WillPower Radio, LLC, licensee of W256BI at Red Hook, NY. This application proposes two changes; (1) a change in antenna azimuth and (2) a change in power.

The allocation study shows one overlap condition to third adjacent WCTW at Catskill, NY. A waiver request is included with this application, along with a contour map showing the interfering contour, and how no population is affected.

This facility is a fill-in translator. As such, power does not exceed 250 watts.
