

FCC Form 302-FM - License To Cover
University Of Central Florida
WUCF-FM -- 89.9MHz
CH 210C3 -- 5.6kw(V)/0.36kw(H)
Orlando, Florida

EXHIBIT 9

The attached exhibits are evidence of compliance with “Special Operating Conditions or Restrictions” listed in FM Broadcast Station Construction Permit BPED-19990429MD. Submitted as additional exhibits 10A through 10C are: 1) A complete detailed “proof of performance” as documented and certified by Electronic Research Incorporated (ERI) attesting to the horizontal and vertical radiation patterns of the WUCF-FM antenna and also containing detailed procedures and methods the actual measurement methods; 2) A certified affidavit from Land-Tech Surveying, stating that the antenna was oriented to the azimuth specified by the Manufacturer’s installation instructions; and 3) an signed affidavit from Louis Mueller Broadcast Services, stating that their representative personally observed the antenna installation and that the same was completed pursuant to the Manufacturer’s instructions and further listing the qualifications of the certifying engineer.

As the above conditions have been met with the submission of these exhibits, we therefore respectfully request that “Program Test Authority” be granted to WUCF-FM in the interim until the “License to Cover” is granted.
