Re: Azimuth Certification, Radio Tower Site, Old Port Gibson Road, Vicksburg, Mississippi

To Whom It May Concern:

The azimuth of the FM broadcast antenna on a tower owned by American Family Radio and located on Old Port Gibson Road, Vicksburg, Mississippi, was determined by using a Real Time Kinematic Global Positioning System and Triangulation.

This Shively Labs directional antenna (Model 6810) is aimed at an azimuth of 103 degrees 07 minutes 39 seconds.

I certify that the above information is correct and accurate.
