In re: KALD(FM), Caldwell, TX
Facility ID #91682
Houston Christian Broadcasters, Inc.
BPED-20090828ACY

Dear Applicant:

This letter refers to the above-captioned minor change application to modify the effective radiated power, class, antenna height, and location.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 73.509 with respect to the first-adjacent channel Class A licensed facility (BLED-20060901ACQ) for KYLR(FM), Hutto, TX. Specifically, the proposed interfering contour (54 dBu) would cause prohibited overlap to the protected contour (60 dBu) of KYLR between the azimuths from 260°T to 271°T. Although the applicant provided 3 second terrain data, our studies indicate that calculating the relevant contours using the submitted terrain data does not eliminate this overlap. This constitutes an acceptance defect.

In light of the above, Application BPED-20090828ACY is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is **HEREBY DISMISSED**. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
Audio Division
