

Engineering STA Exhibit 20

Local Media TV Philadelphia, LLC, (“LMTV”) the licensee of WTSD-CA, Philadelphia, PA (Facility ID 53579) (“WTSD” or the “Station”), hereby respectfully request special temporary authority for LMTV to operate the Station on digital channel 16 with the technical specifications set forth in this application.

WTSD began operating with its authorized digital facility (BMPDTA-20120221ABQ) on June 24, 2012 and a license application (BLDTA-20120627AAX) was filed on June 27, 2012. On July 3, 2012, the LMTV was contacted by representatives from the New York City Department of Information Technology & Telecommunications (“NYC DoITT”). The representatives indicated that they were receiving increased interference and asked WTSD to cease operations until they could conduct tests to determine the source of the interference. WTSD immediately ceased operations per this request and has been working with these representatives to identify and resolve any interference.

LMTV proposes to resume operations of WTSD pursuant to the plan attached herein as Attachment A, which has been sent to the primary affected parties.

The technical specifications proposed in this engineering STA is identical to the authorized digital facility with the exception of the ERP which has been significantly lowered from 15 kW to 0.022 kW, allowing WTSD to recommence service to more than 2.4 million persons within the its 51 dBu contour.
