Re: J&V Communications, Inc. (JVC)
WPRD(AM), Winter Park, FL
Facility Identification Number: 29341
Special Temporary Authority (STA)
BESTA-20210806AAI

Dear Ms. Torrado:

This is in reference to the request filed on August 6, 2021. JVC requests a further extension of the STA granted on January 30, 2018, to continue operating ND at night to allow time to complete all remaining repairs and file the required FCC Form 302 application.¹ In support of the request, JVC stated additional time is needed to complete all remaining repairs.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

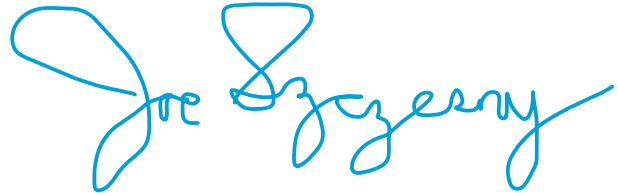

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and JVC may continue to operate ND using the daytime tower with a maximum of 5 kW day and 0.25 kW at night. JVC must reduce the nighttime power or cease operation if complaints of interference

¹ WPRD(AM) is licensed for operation on 1440 kHz with 5 kW day (ND) and 1 kW night (DA).

are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. JVC must submit an e-mail to my attention to note the date the application was filed to update all operating parameters, or to note that date the station was able to resume licensed operations per BZ-19940715AB with negligible changes.

This authority expires on **February 17, 2022.**

Sincerely,
