

Monticello Media LLC

Charlottesville, VA

Minor Change Application

W285EF – Facility ID 81122

Technical Statement

This technical statement and related exhibits has been prepared on behalf of Monticello Media LLC, licensee of FM translator W285EF. The purpose to request a construction permit for a minor change in the facility. The change involves an increase in ERP, and a change in operating channel. NO CHANGE in the antenna system or location is proposed with this application.

W285EF presently re-broadcast station WHITE-FM, FAC ID 56361, Ruckersville, VA. Exhibit 10 shows that the proposed change will not extend the 60 dBu (1.0 mV/m) contour of WHITE-FM.

W285EF presently operates on channel 285D. We propose to change to channel 286D and increase the ERP for 0.046 to 0.090 kW. Exhibit 13 is an interference study that shows the proposed will fully comply with 47 C.F.R. section 74.1204 of the Commissions rules.

W285EF is co-located with AM station WKAV and translator W231AD, therefore compliance with RF hazard requirements cannot be determined with the RF worksheets. Exhibit 17 shows full compliance with 47 C.F.R section 1.1306.
