Chesterfield, MO 63017

Dear Mr. Withers:

Per your request, we have reviewed the potential impact of a proposed directional antenna for station KYRK, FCC facility #40798, to be co-located on a tower on which radio station KKWV, FCC facility #91069 is using a Jampro directional antenna.

According to the parameters you have provided regarding antenna height and effective radiated power of your proposed facility, our research shows that there will be no impact on the pattern of the Jampro antenna in use at KKWV.

Please let me know if we can be of further assistance.

Regards,

Alex Perchevitch
President
Jampro Antennas, Inc.
