## COMPREHENSIVE TECHNICAL EXHIBIT

**Application for Minor Modification of Construction Permit**  
**K20IM, FCC ID 125290**  
**FCC File Number BNPTTL-20000807AEP**  
**EICB-TV West, LLC**

**Application for Minor Modification of CP.** The within filing seeks a change of location, ERP and antenna pattern. Its 74 dBu F50,50 contour enjoys significant overlap with that of the the underlying construction permit. The within site will provide improved service to the original community of license.

**Contingent application.** This application is filed pursuant to §73.3517(a); the permission document is attached to this exhibit and by reference made a part hereof.

**Use of Unregistered Tower.** The application is on a 4.0 meter pole affixed to a church building. The proposal was subjected to *Towair* analysis and found not to require registration with the FCC, thanks to being less than 6.1 meters above the existing building on which it is installed.

**Interference Analysis.** The following is submitted as an OET 69 Longley-Rice study exhibit for the above-captioned application as performed by the Techware, Inc. FCC interference analysis program on a Sun Blade computer. Caution must be exercised when running any confirming studies. Because of the small population and its dispersion and the local terrain, the Longley-Rice study parameters were and must be adjusted to achieve sufficient accuracy of the result. The study parameters are as follows:

Signal analysis squares = 0.2 km on a side.  
Terrain intervals for measurement = 0.1 km.

a. The facilities which exhibit contour overlap or short spacing and thus must be studied are:

FILE NUMBER	CALLSIGN AND LOCATION
BLTT-19980912IB	K19BS, Daggett, CA

b. Interference to the facility shown is less than 0.5% with use of the smaller Longley-Rice increments discussed above.

c. Accordingly, waiver of appropriate portions of §74.705 is requested.

Mr. Randall A. Weiss  
EICB-TV EAST & EICB-TV WEST  
406 Copeland Drive  
Cedar Hill, TX 75104

Mr. Weiss:

Pursuant to Section 73.3517(a) of the FCC's Rules and Regulations, Laurie Mintz hereby consents to the filing by EICB-TV WEST of an application to modify the construction permit for Station K20IM, Barstow, CA, File No. BNPTTL-20000807AEP.

This application should be filed in the name of EICB-TV WEST and be only contingent upon the grant of assignment application BALTTL-20080414ABI..

Very truly yours,

  
Laurie Mintz
