Subject: WNVE BESTA-20220505AAA granted 5/9

Extension of Special Temporary Authority For a Radio Broadcast Station
Audio Division, Media Bureau

Date: May 9, 2022
File Number: BESTA-20220505AAA
Call Sign: WNVE (FM)
Facility ID Number: 183333

A seventh extension of the Special Temporary Authority granted 4/27/2018 under file number BSTA-20180601ABE, IS GRANTED, subject to all the terms and conditions specified in the original STA authorization.

This extended authority expires **November 5, 2022**. Please pay attention to this expiration date, and file a new STA request on or a little before the expiration date of this STA extension. Operating authority ceases upon expiration of a granted STA request, and late-filed extension requests do not automatically reinstate or continue that authority.

On May 17, 2022, the FCC will be moving FM STA filings from the CDBS database to the LMS database. It will not be possible to request an extension in LMS of a CDBS-granted Special Temporary Authority. You will be required to file a new engineering STA request in LMS, and provide the technical parameters of the proposed operation, in order to maintain Special Temporary Authority (STA) for WNVE. Please have that information ready to provide when you prepare a new request in November 2022 (if needed).

Authorized by: Dale Bickel dale.bickel@fcc.gov
Senior Electronics Engineer

A copy of this e-mail will be posted in the FCC’s CDBS database under the file number above.
Please retain a copy of this authorization for your records.

Considerations:

Licensee must take all steps to ensure that workers and the public are not exposed to radiofrequency exposure In excess of the Commission’s exposure limit.

This Special Temporary Authority does not supersede any non-FCC-regulated requirements applicable to the STA-authorized facility. The licensee remains solely and wholly responsible for maintaining compliance with such requirements.

Requests for extension of STA may be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.
