MULTIPLE OWNERSHIP STUDY
ON BEHALF OF NASSAU BROADCASTING II, LLC
FOR STATIONS WEEH(AM) AND WODE-FM
EASTON, PENNSYLVANIA

OCTOBER 2000

ENGINEERING REPORT COVERING
MULTIPLE OWNERSHIP STUDY
ON BEHALF OF NASSAU BROADCASTING II, LLC
FOR STATIONS WEEX(AM) AND WODE -FM
EASTON, PENNSYLVANIA

SUMMARY

This engineering report is submitted on behalf of Nassau Broadcasting II, LLC (“Nassau”) in support of an application by Nassau to acquire stations WEEX(AM) and WODE-FM. Both stations are licensed to Easton, Pennsylvania. This report demonstrates that Nassau’s application complies with the applicable technical multiple ownership provisions of Section 73.3555 of the Commission’s rules as they pertain to number of stations in market.

DEFINITION OF THE “MARKET”

Under the current FCC ownership rules, a “market” is defined as the area encompassed by the overlapping principal community contours of the stations for which common ownership is proposed. Accordingly, a study has been conducted on the locations of the principal community contours of WEEX and WODE-FM and all pertinent Nassau owned or operated stations. A mapping of this study is provided in Figure 1. The stations included in the mapping are listed in Table 1. Figures 2 and 3 depict the two separate “markets” warranting inclusion for study.

Figure 2 is a mapping of “Market” 1. This market contains five Nassau owned or operated stations, not more than three of which are in the same service (AM or FM). The total number of stations shown in each market is fourteen as required in Section 73.3555(a)(1)(iv) of the multiple ownership rules. Nassau will not own, operate or control more than 50% of the stations in this market. Additional in-market stations exist in this market, but are not shown in order to maximize mapping clarity. Table 2 lists the stations contained in Figure 2. Figure 2A shows the Nassau stations in “Market: 1.

Figure 3 is a mapping of “Market” 2. This market consists of six Nassau owned or operated stations, not more than four of which are in the same service. The total number of stations shown in this market is fifteen as required in Section 73.3555(a)(1)(iii) of the multiple ownership rules. Nassau will not own, operate or control more than 50% of the stations in this market. Additional in-market stations exist in this market but are not shown in order to maximize mapping clarity. Table 3 lists the stations contained in Figure 3. Figure 3A shows the Nassau stations in “Market” 2.

METHODOLOGY

The field strength values employed for the principal community contours shown in this report are the FCC prescribed values of 5 mv/m for AM stations and 3.16 mv/m for FM stations. All technical information for the stations shown in this report was obtained from the FCC’s database. Contour locations were determined in strict accordance with FCC specified procedures and are computer plotted and calculated utilizing software of known accuracy.

CONCLUSION

Nassau's acquisition of WEEX and WODE-FM would comply with the Commission's multiple ownership rules as they pertain to number of stations in a market.

The foregoing was prepared by or under the immediate supervision of Charles A. Hecht of Charles A. Hecht & Associates, Inc., Pittstown, New Jersey, whose qualifications are a matter of record with the Federal Communications Commission. All statements herein are true and correct of his own knowledge except such statements made on information and belief, and as to those statements, he believes them to be true and correct under the penalty of perjury.

Respectfully submitted,
