

**Compliance with Special Operating Conditions**

The Construction Permit contains several Special Operating Conditions, summarized as follows:

1. The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. BEFORE PROGRAM TESTS COMMENCE, sufficient measurements shall be made to establish that the operation authorized in this construction permit is in compliance with the spurious emissions requirements of 47 C.F.R. Sections 73.317(b) through 73.317(d). All measurements must be made with all stations simultaneously utilizing the shared antenna. These measurements shall be submitted to the Commission along with the FCC Form 302-FM application for license.
3. Pursuant to the grant of this construction permit and the authority found in Sections 4(i), 5(c)(1), 303 and 307(b) of the Communications Act of 1934, as amended, and Sections 0.61, 0.204(b), 0.283, 1.420, 73.203(b), and 73.3573 of the Commission's Rules, the FM assignment IS MODIFIED as follows:

Community Channel No: Pueblo, CO Add 295C1, Delete 295C2

Pursuant to Section 316(a) of the Communication Act of 1934, as amended, license BLH-20050107AAQ IS MODIFIED to specify operation on Channel 295C1 in lieu of Channel 295C2.

4. Permittee has specified use of the antenna listed below to demonstrate compliance with the FCC radiofrequency electromagnetic field exposure guidelines. If any other type or size of antenna is to be used with the facilities authorized herein, THE AUTOMATIC PROGRAM TEST PROVISIONS OF 47 C.F.R. SECTION 73.1620 WILL NOT APPLY. In this case, a FORMAL REQUEST FOR PROGRAM TEST AUTHORITY must be filed in conjunction with FCC Form 302-FM, application for license, BEFORE program tests will be authorized. The request must include a revised RF field showing to demonstrate continued compliance with the FCC guidelines.

Dielectric DCR-M8CFE92, eight sectioned, 0.875 wavelength spaced antenna

5. BEFORE PROGRAM TESTS COMMENCE, sufficient measurements shall be made to establish that the operation authorized in this construction permit is in compliance with the spurious emissions requirements of 47 C.F.R. Sections 73.317(b) through 73.317(d). All measurements must be made with all stations

simultaneously utilizing the shared antenna. These measurements shall be submitted to the Commission along with the FCC Form 302-FM application for license.

Educational Media Foundation ("EMF"), complies with, or agrees to, these conditions, as follows:

1. Educational Media Foundation, in coordination with other users of the site, agrees to reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. Educational Media Foundation performed sufficient measurements to establish that the operation authorized in the construction permit is indeed in compliance with the spurious emissions requirements of 47 C.F.R. Section 73.317(b) through 73.317(d). See Exhibit 9A.
3. Pursuant to the grant of this construction permit, the FM assignment is modified by adding channel number 295C1 to Pueblo, CO, and deleting channel 295C2.

Educational Media Foundation affirms the FM assignment from Channel 295C2 Pueblo, CO to Channel 295C1 to Pueblo, CO.

4. EMF has used the specified antenna Dielectric DCR-M8CFE92, eight sectioned, 0.875 wavelength spaced antenna. No further action is required.
5. Educational Media Foundation performed sufficient measurements to establish that the operation authorized in the construction permit is indeed in compliance with the spurious emissions requirements of 47 C.F.R. Section 73.317(b) through 73.317(d). See Exhibit 9A.

Therefore, all Special Operating Conditions of the KLCX Construction Permit (FCC File Number BPH-20130913ACE) have been met.
