The applicant will therefore remain in full compliance with the requirements of 73.3555(a).

NEW (FM) Lead, SD (Fac ID 190403) - CP Applied For

Because Miriam Media, nor its principals hold a cognizable interest or local marketing agreement in any existing FM or AM station or proposed station with any overlapping predicted principal community contours with the proposed station, a grant of the instant application will result in Miriam Media having a cognizable interest in but a single FM station in the market and would therefore comply with the requirements of 73.3555(a). Accordingly, following a grant of the instant application, Miriam Media and its principals will remain in full compliance with the multiple ownership restrictions contained within Section 73.3555(a) of the Commission's Rules.
