

Statement of Certifying Engineer

I hereby affirm that:

I have a 2 year industrial electronics certificate from Greene County Vocational school, and hold a CBRE certification from the Society of Broadcast Engineers.

I have been employed in the radio broadcast industry since 1989.

I am currently employed by IBI Radio Ministries, the holder of the construction permit No.:BMPED-20111213ABJ

The new antenna system was designed by, purchased from, and installed by Electronics Research, Inc. (ERI) in Chandler, Indiana. The antenna is an LP-5E-DA-HW.

I personally witnessed the antenna testing on the range at the ERI facility, and supervised its installation on the tower, and I am satisfied that it was installed according to the manufacturer's specifications.

Further, a professional surveyor certified the orientation of the tower, and then the azimuth of the antenna once installed. See the surveyor's statement under a separate cover.

All statements, herein, are true to the best of my knowledge.

Joseph D. Rother
