RE: Low Power Television application of University of Utah channel 38, Torrey, Etc. UT  
File number: BDISDTT-20100423ACV  
Facility Id No.: 167112

Mr. Hashemzadeh:

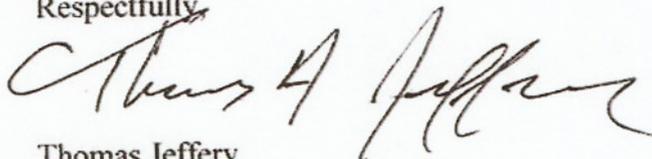

Wayne County is currently the licensee of K39IV-D serving the Teasdale and Torrey Utah area.

Wayne County is also aware that the University of Utah has filed an application for a power increase of channel 38, file number BDISDTT-20100423ACV, at this same site.

Wayne County agrees to accept any interference that may occur from the University of Utah channel 38, file number BDISDTT-20100423ACV. Wayne County is coordinating an equal power increase with their translators at this site including K39IV-D.

We therefore have no objection to the granting of the present University of Utah channel 38, file number BDISDTT-20100423ACV, application.

Respectfully,

Thomas Jeffery  
Wayne County Commissioner
