Radio Service Code:	FM Broadcasting
Applicant:	Addressee
Fixed transmitter location:	Hacker Valley, WV
Operating Frequency:	89.4 MHz
Purpose of application:	Minor modification of construction permit
FCC File Number:	BMPED-20100831AAQ
Frequency Coordinator:	Not applicable
NRAO Coordination:	NRQZ#6794/13JUL10

Dear Applicant:

The National Radio Quiet Zone (NRQZ) office evaluated the above-mentioned transmitter to determine the possible interference impact on our highly sensitive radio astronomy operations.

The National Radio Astronomy Observatory (NRAO), Green Bank, WV, **does not object** to and **recommends for approval** the modification of facility 176879 by the FCC.

To assist in the regulatory requirements of this transmitter, the NRQZ office requests that:

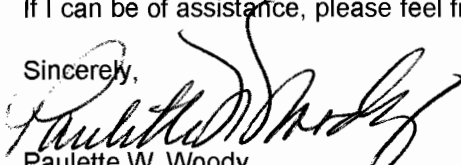

1. The applicant **shall** provide the NRQZ office notice of their official filing with the FCC per section 47CFR1.924 (a) (2).
2. The coordinator attaches this Letter of Concurrence to the FCC application.

The Sugar Grove Research Station, Sugar Grove, WV does not object to the granting of the referenced modification by the FCC.

This letter **constitutes coordination** of assignment in the National Radio Quiet Zone as required by the FCC Rules and Regulations 47CFR1.924.

If I can be of assistance, please feel free to contact me.

Sincerely,

Paulette W. Woody  
Interference Office, NRQZ Administrator
